About Us

Culinary Arts Academy Switzerland consists of a highly experienced culinary team, state-of-the-art facilities and a range of programs to perfect the culinary skills of chefs in the making. Students learn from a team of experienced chef instructors who have worked in kitchens, five-star hotels, and Michelin-starred restaurants all over the world. Students also spend time with legends of the culinary industry who come and give masterclasses to inspire them. With three campuses, one in the historic centre of Lucerne, one lakeside at Le Bouveret, and one at the foot of the Alps in Brig, full board is provided throughout the week and is included in the fees. All student accommodation is designed to offer students the comfort and privacy needed for study. Culinary Arts Academy Switzerland shares campuses with César Ritz Colleges Switzerland, a leading business school with entrepreneurship and hospitality at its heart. The hands-on programs include six-month internships in iconic restaurants and hotels around the world thanks to our many industry partnerships. The Bachelor's and Master's degrees are awarded in partnership with the University of Derby (UK). Studying in Switzerland exposes students to a variety of European cuisines and help them broaden their culinary horizons, as they live and learn alongside students from around the world. Our graduates are successful culinary professionals and foodpreneurs.

Summary – Student Life: N/A

Application Process: Summary

Applications are completed via our online application portal found on our website (www.culinaryartsswitzerland.com). Most students need a student visa requiring up to 12 weeks to be approved therefore we recommend applying as soon as possible. Applicants who want to transfer credits from another culinary program or have previous work experience taken into consideration for a direct entry can use the same application process. There is no application fee.
